

7STA09C Series Motorized Precision Translation Stages

Characteristics:

- Equipped with a stepping motor and a standard DB9 plug, 7SC series motion controllers for automatic control;
- With power failure protection device, automatically lock the screw to prevent position change when motor power cut-off, especially suitable for vertical use with big load;
- Driving by high quality ball screw rod, good repeatability, long life;
- Screw rod adopts three bearing mounting structure, locking the end of axis to prevent loose, suitable for high speed reciprocating use;
