

7SVM0413 Precision Vertical Translation Stage

Characteristics

- Precision linear bearing guide rail;
- Double rails over-location ensures smooth and comfortable movement, high precision;
- Driving directly by micrometer, quantitative reading;
- Standard connection holes on the table for connection, such as connecting with 7MP series supporting rod.

Model	7SVM0413
Travel	13mm
Accuracy	0.005mm
Minimum graduation	0.01mm
Sensitivity	0.002mm
Table size	44mm×62mm
Load	2kg
Weight	0.6kg
